

Name: Einar Helgi Jóhannsson

Game: Balloon Popper

Balloon Popper is a simple point and click game that is set inside an archery range. The user sees a target and objects falling from the top to the bottom. The goal for the user is to gain 30 point by clicking on the balloons before the timer runs out. However, if the bombs are clicked three times the user will lose all his hearts and will be welcomed be the Game Over screen
